WINE PROFILE

MENDOZA CAB SAUV

True to its varietal, the Mendoza Cabernet Sauvignon is a sharply focused expression of black and red fruits and subtle mineral notes. This Old World inspired, limitted production wine, offers refined yet firm tannins, and a bright acidity that gives it a lush textura through a long finish.

ACHAVAL FERRER

Achaval Ferrer has one single passion: to craft world-class, terroir-driven red wines from Argentina. Achaval Ferrer produces the most critically acclaimed Malbecs from Mendoza, sourced from single vineyards with low-yielding, old ungrafted vines.

TECHSHEET

WINEMAKER
Gustavo Rearte

VARIETAL COMPOSITION
100% Cabernet Sauvignon

APPELLATION
Perdriel (Luján de Cuyo)
Medrano (Junín)
Tupungato, La Consulta, Chacayes and Altamira (Valle de Uco)

SOIL
Uco Valley: Very shallow soil with gravel on the surface combined with volcanic ashes and calcareous rocks. Very good drainage.
Luján de Cuyo: Of alluvial origin, it has a thin sandy loam soil with gravel underneath. Very good drainage.
Medrano: Of alluvial origin, with a surface layer of about 80cm of silty clay on a bed of sand and eroded rock.

VINE TRAINING
Vertical trellis between 1.70-1.80 meters.

SUSTAINABLY FARMED
Sustainable

VINEYARD YIELD
7,000 Kgs per hectare

HARVEST TIME
March 26, 2020

ALCOHOL 14.6%.

PH 3.7

ACIDITY 6.15 g/L

BRIX AT HARVEST 24.6

VINIFICATION
Several daily open pump-overs with gentle rain on the cap, followed at the end with a gentle pressing determined by the results of the daily tasting. During this process, no filtration or cold pre-fermentation maceration, no correction of the natural acidity of the grapes, no bleeding during fermentation maceration and no enzymes of any kind are added during vinification.

FERMENTATION
It is carried out in cement tanks at a high temperature (between 29 and 32 degrees Celsius) with many daily pump-overs.

MALOLACTIC
100% spontaneous during barrel aging.

OAK AND AGING
For 12 months in second and third use French oak barrels.
